### **Lower price**

SHOUTrds took 50% off the price and is now available for ~25,-- (\$25,--).

SHOUTcast released version 2.0, SHOUTrds released version 2.5 so a good time for a lower price!

Click the Purchase link above to goto the share-it page, you can choose your f

## **SHOUTrds 2.5 Preview**

Currently I'm working around the clock to get the 2.5 version of SHOUTrds ready. In this version a few new features are added, bugfixes are done and changes are made.

### **New features**

These are the most important new features:

- + Support for SHOUTcast 2.0 (beta).
- + Support for SAM Broadcaster.
- + RDS2Twitter to send RDS to Twitter.
- + MultiStream technology to stream to multiple streams.
- + A logfile for debugging.

### **Changes made**

The Server Configuration is moved from the main form to an own dialog. A dialog to show Server Status is added. The scheduler no longer shows "\* Is not a valid integer value" on sorting the items. Textsender (the thing that sends the RDS) and Scheduler now have their own dialogs. The options to send text to MSN and to read OtsDJ songinfo have been moved to the More Options dialog. Sound, Graphics and Error Handling can be turned off inside the program (More Options dialog).

### **Screenshots**

Click to enlarge.

This is how the new mainform looks like.

This is the log dialog, it's not styled.

This is the More Options dialog, from here you can change Ots, SAM, MSN, Twitter and Sound.

This is the SAM Settings dialog to configure SAM settings.

This is the new Server Configuration dialog, from here you can configure your server.

This is the ServerStatus dialog showing which RDS line is being sent to which server.

This is the new Twitter Settings dialog, from here you can configure your Twitter account.

### Website update! 2010-04-09

Today the website is updated!

Backwards compatible with Google

Added "redirects" to the site so old hyperlinks to the old pages will remain "wo

Twitter

SHOUTrds has it's own Twitter account! It's tweets are shown on the brand new

Status on SHOUTrds 2.5

- SAM Broadcaster support is up-and-running!

- SHOUTcast 2.0 Beta 1 support is up-and-running!

In Beta 1 of SHOUTcast 2.0 the 7.html file is removed, this file is used by man  
(current-song) on the website. The SHOUTrds scripts also use this 7.html, we a  
and use the index.html instead.

Keep you posted!

### **SHOUTrds 2.5 - Under construction!**

Currently SHOUTrds 2.5 is being developed!

Some new features include:

- SHOUTcast 2.0 (beta) support.
- The scheduler is being rewritten.
- SAM Broadcaster support.
- Logging for better support.
- Some (bug) fixes and improvements.

It's currently unknown when the new SHOUTrds 2.5 will be released.

### **SHOUTrds 2.1 Released!**

SHOUTrds 2.1 is available for download! (See the patches section).

Changes:

Creating a schedule on all days showed an "# is not a valid integer value" error.  
The progressbar could get "out of range" after 23:59h  
The last three columns in the scheduler form are now hidden.  
SHOUTcast didn't accept passwords containing special characters.  
It's now possible to change the way \$ots\$ is shown.
